

Terms and Conditions of Sale

By placing an order with Square-J LLC, you agree to all of the following terms and conditions:

1. All sales are final. You are placing an order for a custom manifold set. Your order will obligate Square-J LLC to make a purchase from Torqit Pty. Ltd., an Australian company, (Marine Torq) for the construction and delivery of your manifold set. This process involves international money transfers and fees that are not reversible.
2. No returns for any reason. Your manifold set is built for your specific application, and as such it may not have application for any other engine. Square-J LLC agrees to help you specify the requirements of your purchase, then will enter into contract with Marine Torq to have your manifold set built to those requirements.
3. Marine Torq or their agents, affiliates, subcontractors, or assigns will build your manifold set. Square-J LLC makes no representation regarding the materials used, country of origin, mill certificates, skill levels, etc. for building your manifold set. If you have questions regarding topics such as these, please contact Marine Torq before you finalize your purchase.
4. Square-J LLC makes no representation regarding tube size, flow, horsepower increase, torque increase, or any other performance aspect of your manifold set. If you have questions regarding topics such as these, please contact Marine Torq before you finalize your purchase.
5. Payment must be made in full before Square-J LLC will enter into contract with Marine Torq for your manifold set. Square-J LLC must make full payment to Marine Torq at the time of contract to build your manifold set. Square-J LLC will not enter into contract with Marine Torq until your payment is complete.
6. You agree to accept delivery of your manifold set. Marine Torq will arrange shipment and delivery of your manifold set after it is built. You cannot refuse delivery for any reason, including any change in US Customs laws, rules, or fees after you order. You waive any and all rights to credit card chargeback except in the case that Marine Torq or their agents, affiliates, subcontractors, or assigns fails to ship your manifold set within 90 days.
7. You agree to pay all import duties or fees. Recent changes to US Customs import duties make it hard to predict if your manifold set will require a payment of import duty. You as the buyer agree to promptly pay any such fees.
8. Any disputes involving billing, payment, delivery, or any other aspect of this sale will be settled in Okaloosa county in the state of Florida. You waive any protection or circumstance that residence in or delivery to your state may offer, and you agree to arbitration under the laws of the state of Florida.
9. All warranties are provided by Marine Torq. Square-J LLC may assist with claims, but is in no way responsible for actions required by Marine Torq in satisfaction of warranty claims.
10. If you have questions or comments about these terms and conditions, please find our contact information below.
